## TRUST UPDATE – FEBRUARY 8, 2021

---

### **Review Process Election for Disease Level V - Other Cancer Claims**

The average Liquidated Amounts of Other Cancer claims are trending below their Average Values. Section 5.3 of the Trust Distribution Procedures prohibits a claimant from changing his or her review process election after the Trust has offered to resolve the claimant's claim. However, so that firms can better evaluate the existing Individual Review Model and whether their client's claims would receive a higher value under Individual Review, the Trust will make an exception to this rule for Other Cancer claimants until December 31, 2021.

Upon written request, the Trust will change an Other Cancer claimant's review process election from Individual to Expedited Review or from Expedited to Individual Review after it has made a settlement offer. Please note that secondary exposure and Foreign Claims are not eligible for conversion because they must be filed and valued as Individual Review claims.

General or claim-specific questions, as well as requests to change the review process election for an Other Cancer claim should be sent to Gregg McHugh at [gmchugh@diiasbestostrust.org](mailto:gmchugh@diiasbestostrust.org) and Kelly Hankey at [khankey@diiasbestostrust.org](mailto:khankey@diiasbestostrust.org).
